There's no stopping him.

The rising costs of a college education certainly didn't. Neither did the cuts in financial aid.

He's part of a nationwide program called Cooperative Education. It allows students to alternate studies at the college of their choice with paid, practical work experience in the field of their choice.

The Co-op Education program not only gives students a chance to earn money and pick up the most valuable kind of knowledge, it gives employers a chance to pick up the most valuable kind of employee.

If you'd like more information about how your company can participate in the Co-op Education program, write to us at the address below. You already know this much: Anyone in the program has to be dedicated, ambitious, self-reliant and hardworking. A lot like you.

Co·op Education.

You earn a future when you earn a degree.

Ad Council **Write:** Co-op Education • P.O. Box 775E • Boston, MA 02115. A Public Service of This Publication © 1987 National Commission for Cooperative Education
